This is principally a transcript of monuments by Robert (Bob) Pauling done over several years to 2008. It contains details of the individual, the plot and section of the cemetery and other people mentioned on the monument, many still living at that time.

The total of deceased persons recorded is 6,033. BDA cross indexed other people mention on the monuments including parents and spouses of the deceased but not children as a very large number were named with their nickname only. This resulted in 7,136 people recorded.

A number of monuments were difficult to decipher, the date of death of some have been added by BDA from The Ryerson Index.

Our thanks to Bob Pauling for supplying the data to add to the BDA Database.
